Help

The lab exercises of this course are based on the MATLAB programming language. All lab assignments will be submitted online through the edX interface to the MATLAB servers. However, you may be interested in installing MATLAB on your own computer in order to get more familiar with MATLAB and to run your own experiments.

In order to help you do this, as a result of support from MathWorks, you will be granted a downloadable license to MATLAB for the duration of the course.

https://www.mathworks.com/licensecenter/classroom/hkustx_elec1200/ (https://www.mathworks.com/licensecenter/classroom/hkustx_elec1200/)

Please use the MATLAB Installation discussion forum below for installation problems. When posting your problem, please include the following information.

1. The Error message
2. Your Operating system
3. If your computer is 32 bit or 64 bit
4. The steps prior to the error occurring

EdX is a non-profit created by founding partners Harvard and MIT whose mission is to bring the best of higher education to students of all ages anywhere in the world, wherever there is Internet access. EdX's free online MOOCs are interactive and subjects include computer science, public health, and artificial intelligence.
